

Yun Chen

📍 San Diego, CA | ✉ yunchen@qti.qualcomm.com | 🌐 yunchen011.github.io | 🔗 linkedin.com/in/yun-chen-site

EDUCATION

- **University of California San Diego (UCSD)** San Diego, CA
Ph.D., Electrical and Computer Engineering (Degree Conferred) Apr. 2024 - Apr. 2025
- **North Carolina State University (NCSU)** Raleigh, NC
Ph.D. Program, Electrical and Computer Engineering (GPA: 4.0/4.0) – transferred to UCSD Jan. 2021 - Mar. 2024
- **The University of Texas at Austin (UT Austin)** Austin, TX
M.S., Electrical and Computer Engineering (GPA: 3.95/4.0) Aug. 2018 - Dec. 2020
- **Southeast University** Nanjing, China
Bachelor of Engineering in Information Engineering (GPA: 89.13/100) Aug. 2013 - Jun. 2017

RESEARCH AND INDUSTRY EXPERIENCE

Industry Experience

- **Senior Engineer** Apr. 2025 - Present
Qualcomm Technologies, Inc.
 - Full-time engineering role, building on Ph.D. research and prior Qualcomm internships
- **Engineering Intern** Summers 2021, 2022 & 2023
Qualcomm Technologies, Inc.
 - ML-based detection and localization for indoor device-free RF sensing – Dr. Marwen Zorgui, Dr. Arumugam Kannan (2023)
 - Precise indoor positioning using semi-supervised learning – Dr. Srinivas Yerramalli (2022)
 - ML-assisted coordinated multi-point transmission for ultra-reliable services – Dr. Taesang Yoo (2021)
- **Research Intern** Summers 2019 & 2020
Ericsson Inc. – Prof. Ali Khayrallah
 - Deep learning-based 5G air-to-ground network design and optimization [12.][14.] (2020)
 - Reinforcement-learning-based drone mobility and handover management [15.][17.] (2019)

Academic Research

- **Graduate Researcher** Sep. 2019 - Mar. 2025
WiSeCom Lab / UT Austin, NC State University, UC San Diego – Prof. Nuria González Prelcic
 - Hybrid model/data-driven mmWave localization, channel estimation, and user tracking for ISAC systems
 - Attention-network-based vehicle position and channel tracking at mmWave [2.][7.][8.]
 - Collaborative V2V sidelink localization for orientation estimation and position tracking [4.]
 - Low-complexity mmWave channel estimation via ESPRIT-D [6.]
 - Radar-to-communication channel mapping for mmWave link configuration [9.][10.][13.]
 - UAV navigation using a monocular camera and deep reinforcement learning [16.]
- **Undergraduate Research Assistant** Jan. 2017 - Jun. 2017
Southeast University – Prof. Luxi Yang, Prof. Chunguo Li
 - Trajectory optimization for bicycle trip planning using reinforcement learning [18.]
 - Proactive caching in wireless networks using transfer learning [19.]
 - Mobile edge computing resource allocation using an Echo State Network

TEACHING EXPERIENCE

- **Teaching Assistant** Winter 2025
Circuits and Systems, UC San Diego - Prof. Robert Heath
- **Teaching Assistant** Spring 2019
Probability and Random Process, UT Austin - Prof. Pedro Santacruz

HONORS AND AWARDS

- Best Student Paper Award in *IEEE SPAWC 2023* Sep. 2023
- Summer Graduate Fellowship of the College of Engineering at NCSU May 2022
- Best Paper Award in *IEEE WCNC 2020* (Top 4 out of 400 accepted papers) May 2020
- Excellent Graduation Project at SEU (Top 10 out of 260 projects) Jun. 2017
- Honorable Mention in the Mathematical Contest in Modeling (MCM) Apr. 2016
- Leike Scholarship at SEU (Top 5% out of 1600 students) Jun. 2015
- 2nd Prize out of 1,000 students in Provincial Advanced Mathematics Competition Jun. 2014

PROFESSIONAL SKILLS

- **Skills:**
 - Programming languages: Python, Matlab, C++, HTML
 - Platforms: PyTorch, Tensorflow
 - Simulation tools: Wireless Insite, Robot Operating System (ROS)
- **Language:** English (fluent), Mandarin (native)
